

Tasking Memorandum No. 99- 249

Memorandum For Cdrs DCMDs, DCMC CAOs

Subject: DCMC Nondestructive Testing Workshop, Quality Assurance Knowledge, Skills and Abilities (KSAs) Training Matrices, August 30- September 3, 1999 (TASKING)

Date:

Suspense Date: August 20, 1999

Target Audience: Nondestructive Testing Professionals Command Wide

Requirement(s):

- The DCMC Nondestructive Testing Workshop will be held August 30-September 3, 1999. The workshop will be at DCMC HQ, FT. Belvoir, VA. The purpose of workshop is to develop a list of knowledge, skills and abilities for five nondestructive testing methods: Liquid Penetrant (PT), Magnetic Particle (MT), Eddy Current (ET), Ultrasonic (UT), and Radiography (RT). The output of the workshop will be used to train and certify DCMC Nondestructive Testing specialists.
- District East and West Nondestructive Testing Coordinators shall select the workshop participants for this tasking. Attendance for selected Nondestructive Testing Professionals will be funded by DCMC-OB. District East shall select eight representatives and District West shall select seven representatives, for a total complement of fifteen Nondestructive Testing subject matter experts. The workshop shall be comprised of five groups of three, one group for each discipline.
- District Nondestructive Testing Coordinators shall coordinate workshop participants for each group to assure each District is represented for each test method. District East and West shall agree on one individual to serve as a test method Workgroup leader. The Coordinators shall forward the names and email addresses to DCMC-OB no later than August 20, 1999. DCMC-OB shall send an agenda to all workshop participants by August 24, 1999.
- Each Workgroup leader is expected to bring a laptop computer, three hard copies of each nondestructive testing course objectives and the general and specific test method examination questions. The course objectives and examination questions will be used to develop the knowledge, skills and abilities training matrices.
